**ANGUS**

*Annual Bull Sale*

**FEBRUARY 22, 2025**

**BUFFALO LIVESTOCK MARKETING BUFFALO, WYOMING  
1:00 PM SELLING 78 YEARLING BLACK ANGUS BULLS**

## *Kretschman* **ANGUS**

Hello everyone and welcome to our 2025 production sale,

We are excited to share this group of bulls with you this year. This program of ours continues to be about raising functional cattle that will work for us in this harsh NE Wyoming environment. Our cattle persevered through a tough Summer of wildfires and drought, but they bred up well and the calves pounded the scales this Fall. The resilience in these cattle is phenomenal, and we couldn't be prouder of our mamas.

We selected some new sires with specific traits, and we feel that each one offers a fresh option for everyone. We are confident we have a bull to fit anyone's program. They are moderate in size but have loads of volume and muscle all in a calving ease package. Each bull will have a fertility test and soundness exam before sale day. Carcass results will be available soon as well as videos.

We are pleased to add a "Veterinary Insights" page in our catalog this year. We work closely with our veterinary team, Drs. Jay and Brandi Hudson, and they have given us valuable advice and information that we use in our program daily to protect fertility as well as prevent any gut and feet issues.

We welcome your call anytime. Please visit our website [kretschmanangus.com](http://kretschmanangus.com) or Facebook for updates and get ready to bid online with DVAuction!

See you on Sale Day!

Kelby, Lacey & Clancy Kretschman

**WELCOME**  
*2025 Annual Bull Sale*

# FEBRUARY 22, 2025 | SALE INFORMATION

**LUNCH** 11:30 AM | **SALE** 1 PM | BUFFALO LIVESTOCK MARKETING  
**SELLING** 74 Registered & 4 Commercial Yearling Black Angus Bulls

For general questions call (402) 316-5460

## SUPPLEMENT INFORMATION

Available on sale day with scrotal measurements and carcass ultrasound data and any other updates.

ANNOUNCEMENTS MADE FROM THE AUCTION BLOCK WILL TAKE PRECEDENCE OVER INFORMATION IN THIS CATALOG.

## TERMS AND CONDITIONS

All cattle sell under the suggested terms & conditions recommended by the American Angus Association.

## LIABILITY

Neither Kretschman Angus, Buffalo Livestock or any person connected with the sale assumes any liability, legal or otherwise.

## DELIVERY AND WINTERING

Kretschman Angus will winter your bull(s) at no charge until April 1st. We prefer that all bulls stay with us until that date. There will be a \$100 credit for anyone coming directly to the ranch to pick up their bull(s). If any bulls need to stay with us after April 1st, feeding arrangements can be made. Will deliver to closest convenient location for both parties.

## FERTILITY AND SOUNDNESS

All bulls will be fertility tested and given a full soundness exam by sale day by Drs. Jay and Brandi Hudson - Lazy H Large Animal Services.

## RETAINED INTEREST

Kretschman Angus will retain 1/3 revenue sharing semen interest on all registered bulls sold in this sale.

## FIRST BREEDING SEASON GUARANTEE

All bulls are guaranteed sound and fertile at time of sale or delivery. Any bull selling for \$3000 or more is guaranteed against breeding injury for the first breeding season of around 60 days after turnout of bulls. If injury or death should occur before the 60 days, full documentation by a licensed DVM will be required for credit, less the salvage value, or replacement, if a replacement is available.

## HERD HEALTH

Kretschman Angus has adhered to a complete herd health program individualized for our operation. All bulls sell with proper health papers for delivery. **BIRTH** Alpha CD; **BRANDING**- Vista Once, Vision 7 w/Somnus & Spur and injectable Cydectin; **PREWEANING**- Vista Once, Vision 7 w/ Somnus & Spur and poured with Dectomax; **WEANING**- Vista Once, Vision 7 w/ Somnus & Spur, Nasalgen and poured with Clean up II.

# A.I. SIRES

Each A.I. Sire is chosen based on the individual qualities that we are looking for: Phenotype, foot structure, disposition, calving ease as well as explosive growth traits. Everything needed to improve or add to your existing herd and to make great females to continue those cow power genes. The sons of these Sires embody all these traits.

⇒ **24 Sons Sell** – These Prolific sons are thick with loads of bone, muscle and great feet. Prolific is a proven leader for improving claw shape and heel depth. They all have a wide base width and unmatched volume. Prolific is a proven "Power Sire" so his sons should produce great offspring that will do well in any environment. We recommend using most of these bulls on cows.

# ANGUS BULLS

## A Message from our Vets

### Bull Fertility Testing

Kretschman Angus tests their bulls prior to sale or delivery, a practice we fully support for all bull producers who offer guarantees. We appreciate the responsibility and integrity Kretschman's undertake to protect their buyers, eliminating anything that fails before delivery. With that said, it is recommended that you test all your bulls within 30 days of turnout. A bull's fertility can change with exposure to illness and stress, so even if the yearlings have been tested previously, a producer's best insurance is to have their veterinarian perform a test before turnout.

### THINGS TO CONSIDER:

**Scrotal Circumference:** Directly correlates to daughter's age at puberty.

- 34-38 ideal circumference at 12 months of age
- < 32 cm could relate to daughters that are slow to reach puberty
- > 40 cm could indicate swelling, excess fat, or auto immune disease

**Assessory Sex Glands:** It's imperative your veterinarian palpate these organs as they are the first to become infected when a bull is fed a hot ration and/or over pushed on feed. Infection in these organs affects fertility and longevity.

**Electroejaculation vs. Massage:** It is important to use an electroejaculator to properly extend the penis to examine it for defects. Common yearling defects include a persistent frenulum (a connection that is present at birth that sometimes doesn't break preventing full extension in the mature bull). If caught before breeding, it is an easy fix. If not detected, devastating pregnancy rates can result.

### Proper Nutrition = Longevity

One attribute we appreciate about Kretschman Angus is their understanding of feeding bulls for longevity. They choose to develop their bulls on a high-protein/fat/fiber ration rather than a high-concentrate ration to preserve hoof integrity and the function of the bulls' accessory sex glands.

#### Hoof Integrity

- High concentrate diets are often fed to developing bulls to obtain that "bloom" which buyers are attracted to. Unfortunately, these diets lead to a low-grade acidosis of the rumen making it leaky to bacteria which can travel through the bloodstream and cause laminitis in the hoof wall. Laminitis weakens the hoof wall potentially leading to abnormal hoof growth and lameness which can affect a bull's longevity in the herd. The concept that "fat bulls sell better" should be debunked as buyers educate themselves on the disadvantages of such a bull.
- High protein diets deliver the needed amino acids necessary for proper keratinization of the hoof, promoting healthy horn growth and structural integrity. This is a must in our hard, rough country.

### Accessory Sex Glands

- High concentrate diets are also detrimental to the important accessory sex glands like the prostate, bulbourethral and especially the seminal vesicles. Bacteria set up in these organs compromising the crucial fluid that provides lubrication and nutrients to the semen. It isn't uncommon to collect puss instead of semen from these bulls. Even if treated with antibiotics, there is still a chance long-term scar tissue in these glands could affect the bull's longevity in the herd.

### Epigenetic Effects

Nutrition effects the animal's cellular mitochondria which can affect the next three generations of genetic potential. Proper diets will maintain cellular mitochondrial health helping to ensure proper metabolic function.

Drs. Jay and Brandi Hudson

LOT 74 KA ARBITRATOR 4009

# COMMERCIAL BULLS

These bulls are sired by two of our proven herd sires. RTA Milsap and Musgrave 1676 Stunner 979. Milsap adds heavy muscle, good feet as well as calving ease ability. Stunner adds those carcass traits for scale pounding excellence.
