Hello Producers,

Welcome to our 52nd Annual Bull Sale! We would first like to say thank you for your continued support and patronage. We would also like to welcome first-time bull buyers. We appreciate each of you.

You will find this year's offering to be the same quality bulls you have come to expect from us over 52 years of breeding and selling registered Angus cattle. Our goal is to produce quality cattle that are bred to get out and work, breed cows, and sire feeders that feedlots love. Overfed bulls don't help anyone's bottom line. Sure, they look great but when it is go-time for breeding season, they have a tendency to underperform. Our bulls have oodles of length, excellent feet and structure, and red meat. Length is where the big weaning weights come from. We pride ourselves on selling bulls that are longer than any Angus bulls in the industry.

You will notice our numbers of sale bulls are lower this year than most years. For several years on our Tongue River location, we suffered major drought and fires, which in turn took a toll on our herd. Added to the stress of a major move to new ranches and new surroundings, our number of cows had to be reduced. We are settled into the new ranches and the cows have finally adjusted to their new environments, and we must say, the cows are loving their new home. They are thriving and our cow numbers are starting to increase yearly. As we start our ascent upwards, we are implementing new technologies and concepts into our program. Included will be an IVF program, PAP testing, and complete EID tagging and information. You can still expect different bloodlines, customer support, and hard-working bulls from our place to yours.

New this year, we have PAP tested most of the bulls. Some of the younger bulls were summered at our Deer Lodge operation and the elevation is not high enough to get an effective PAP score. In 2025, all bulls will be summered at our Wisdom ranch, which has an elevation of 6500 ft, and we can make sure 100% of the bulls get a PAP score.

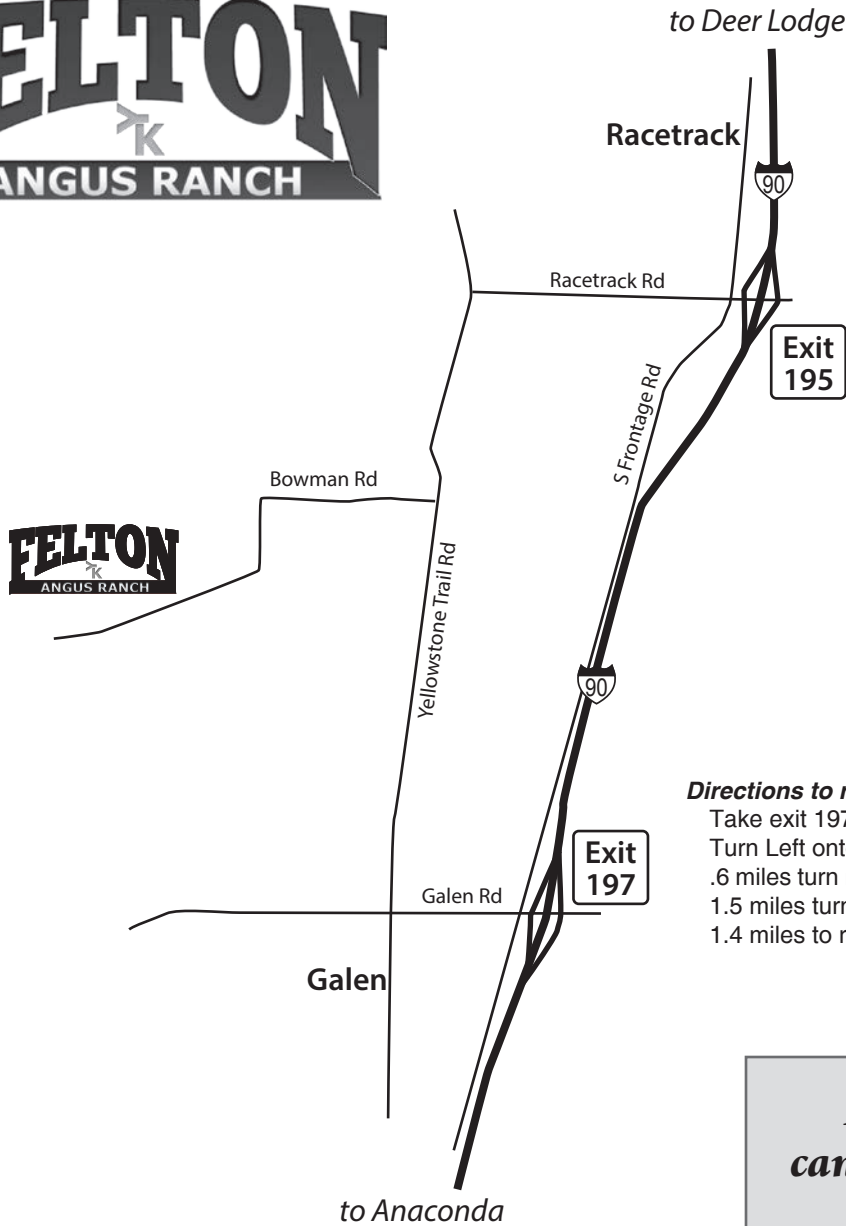

People often ask why we have a limited amount of sire groups? We do this for a reason. This allows us to see more uniformity in our calf crop and it allows us to pass that on to you. When you sell calves to the feeders, they like to see uniformity in your cattle.

Once again, we are having the bull sale entirely online and TV broadcast on Superior Livestock TV. This will be our 2nd year implementing this format, and we feel it went well last year. Our buyers gave us great feedback on this concept. This allowed our buyers to have NO travel time, NO bad roads, and NO additional expenses. This also gives our buyers more time to take care of the chores around the ranch. This is a concept you will see more of in the future.

As always, the bulls are available to view anytime before the bull sale. We have them penned at the Deer Lodge location and the replacement heifers are at the neighbor's feedlot. If you are looking to start a herd or rebuild an existing herd, these heifers would work great. We have purchased them from some of our buyers, and we are very pleased with how they are developing. They are all 1 iron brand, current on all vaccines, and will be Bangs vaccinated.

We greatly appreciate your support and look forward to the future. Please feel free to give us a call or stop by the ranch and look at the bulls. Thank you and see you down the road.

Sincerely
Jim Felton and Richard Felton

If we can be of any assistance please feel free to call us.

VIEWING THE AUCTION

The auction will be broadcast online at Bid.SuperiorLivestock.com and the pre-recorded videos will also be hosted there. You do not need an account just to watch the auction or view videos of the sale offering.

ONLINE BIDDING

Go to Bid.SuperiorLivestock.com for Superior's new online bidding platform. If you have not registered there before you will need to create an account. The first time you register an account you will receive a confirmation e-mail that you must click on. Once you have completed this, select the auction you would like to bid on and click the "Request a Buyer Number" button. The first time you request a buyer number you will be sent a confirmation code via text. Enter that code in the login portal and you will receive a buyer number. This 2-step verification process will only have to be done once and in the future you will be able to simply login and request a buyer number and receive it instantly for any auction. Once you have successfully registered and received a buyer number it will show your name and buyer number on both the video preview page and the online bidding page when you are logged in. If you have an account at LiveAuctions.tv you may skip the registration process and use those login credentials to request a buyer number as [LiveAuctions](http://LiveAuctions.tv) is a division of Superior Livestock. For more details on registering an account and also how to bid, you may watch a tutorial at Bid.SuperiorLivestock.com/how-it-works.

TURN IN BIDS OVER THE PHONE

This is Superior's traditional method of buying cattle and is the suggested process for anybody who does not have consistent, high-speed internet. You still must register an account at Bid.SuperiorLivestock.com and request a buyer number. Once you receive a buyer number you will see the bid line phone number. Just watch the auction online and call in at least 2 lots ahead of the lot you are looking to bid on. A Superior Livestock representative will be with you on the phone and will assist you in placing bids.

FOR HELP WITH REGISTRATION OR ANY PART OF THE BIDDING PROCESS
PLEASE CALL SUPERIOR AT (800) 422-2117.

CattlActive
 100% Natural
 Made in the USA

The health of your cattle
 all starts in the rumen.

Did you know that 80% of a cow's immune system lies in and around the rumen? The ravages of acidosis, poor nutrient absorption and consequent illness can damage not only your cattle but your bottom line.

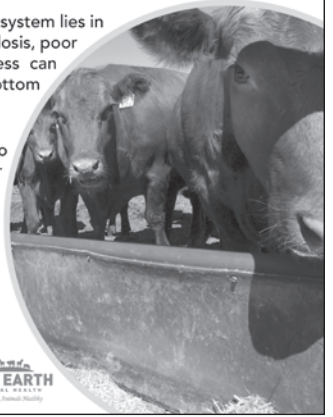

CattlActive® is 100% natural. It works to neutralize acid, encourage feed and water consumption, support beneficial gut flora and increase nutrient absorption for healthier, stronger, heavier cattle come sale time.

Bought this bull from Quam's out in Wisconsin. Another powerhouse and he can be bred to heifers. Cattle feeders will love genetics from this powerful SOB.

Bought this bull from Quam's out in Wisconsin. Another powerhouse and he can be bred to heifers. Cattle feeders will love genetics from this powerful SOB.

Replacement Heifers

80 Head of Angus Replacement Heifers

These heifers will have all their shots and be bangs vaccinated with EID tags. Felton sired. Purchased from Felton Angus Customers. Be a excellent set of heifers to breed and start the herd rebuild. We truly appreciate these customers continued support and loyalty.

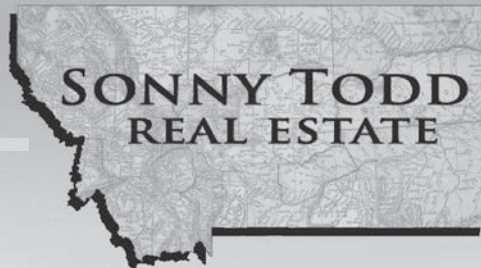

Heifers

15 Head of F1 Baldy Heifers

Will have all their shots, bangs vaccinated with EID tags. Sired by those big time Holden Hereford bulls from Jack up at Valier. Customer buys a Hereford bull now and then and they came with the blacks. Make a nice little set of baldy replacements.

WE *KNOW* MONTANA.

What is the value of my land in today's market?

What are your 1031 exchange options?

Call Logan to discuss how we can help agricultural producing families navigate complex and complicated real estate transactions.

WHY WE TEST WITH HD50K™ FROM ZOETIS

Powered by HD50K™ from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're confident that customers like you can minimize risk in their investment — and enhance the productivity of your cattle.

The benefits of buying HD50K-tested bulls and heifers goes beyond added accuracy for the complete range of traits for more productive daughters and progeny. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. You can also match the HD50K tested sires you buy from us to replacement heifers — through GeneMax® Advantage™ — to make better-informed breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with HD50K.

Number of progeny records in conventional genetic evaluation needed to achieve the same accuracy as GE-EPDs powered by HD50K
