We are pleased to donate this heifer calf. She is feminine and from a cow family line that has produced several top animals. Her dam, Kima 5002, has an MPPA of 102 in our herd. Her granddam, Kima 0102, was one of our favorite cows and produced great calves for several years. With this calf, you will get lots of longevity in her pedigree. Her sire, DKK Brute 931, has been a great outcross sire for our herd. We have been really happy with his progeny and the way he nicks with our cows. Kima 2016 will be a nice addition to any herd.

50th Anniversary of the MONTANA RED ANGUS ASSOCIATION

As we celebrate the 50th Anniversary for the Montana Red Angus Association we "Welcome you to the 39th Annual Prestigious Red Angus Sale"!

On November 3, 1972, several progressive breeders came together to officially organize the association. It was there, that they elected officers and established by-laws. The first officers for the ensuing year were: President- Dave Cawfield, Vice-President – Jim Leachman and Secretary/Treasurer – Pete Stoltz.

MTRAA has a total membership of over 80 members, including registered and commercial breeders from Montana and other states. Find us at www.montanaredangus.org or on our Facebook page.

With over 8,900 cattle registered, Montana ranks No. 1 in registered Red Angus cattle and ranks No. 9 in Red Angus membership.

MTRAA has always looked to the future and leads the way in many programs:

Prestigious NILE Red Angus Sale – First sale to promote Red Angus cattle being sold by area breeders.

Belt Buckle Program – First to honor youth in their achievements using Red Angus genetics.

1977 – The first "Feeder Calf" sales

The Montana Red Angus Association looks forward to the next 50 years of the Red Angus breed!

9194 is the epitome of what we need more of in this breed. She will be 14 years old in the spring, has perfect feet, a gorgeous udder and has had 12 natural calves with a 365-day calving interval and an MPPA of 105. On those 12 calves, she boasts averages of BW-R 99, WW-R 106, YW-R 104, IMF-R 103 and REA-R 105. She truly puts maternal and carcass together in one package with 1% ProS, 1% HB, 1% Milk, 5% ME, 26% HPG, 1% STAY, 16% MARB, 11% YG and 17% REA. 9194 is also the dam of Feddes Lakina Y17, one of the very top donors ever at Feddes Red Angus that boasts an MPPA of 111. This cow does everything right and packs as much maternal punch as any cow out there. The sire of these embryos, Bieber CL Energize F121, has taken the breed by storm with sale toppers all over the country. The genetic cross between these two should be outstanding. We will be putting in many of these embryos in this spring and could not be more excited with this mating.

This cow does everything right and packs as much maternal punch as any cow out there. The sire of these embryos, C-T Reputation 0094, could very easily be one of the most exciting sires in the breed. He was the high-selling bull in the 2021 Feddes/C-T bull sale. Semen has not been released yet, so this is your opportunity to get in early. His calves provide great calving ease with incredible growth. The spring of rib and thickness has been hard to match by any sire we have used. We expect to see Reputation to quickly become a go-to sire across the country. This cross should produce some amazing bulls and even better daughters. There will be calves from this mating on the ground this spring and we are eagerly awaiting them.

Selling 3 embryos with a guarantee of 1 pregnancy if implanted by a certified embryo technician. Embryos are located at Sleeping Giant Genetics. Shipping FOB. J5 L297 Mercedes 14X was purchased through the NILE from a "Pick of the Herd" lot offered by Bowles J5 Red Angus. This 12-year-old cow has earned a 105 MPPA in our herd posting 106 WW and YW ratios on 10 progeny. At her age, she still has an excellent udder structure along with excellent feet. We are currently using her The Real Deal son as a herd bull. The sire of the embryos, RED U2 Money Talks 530F, is proving himself to be a cow maker with his first daughters in production exhibiting excellent udder structure, great feet, easy fleshing ability and dark red color. In his first three calf crops, he has produced 174 progeny that have moderate birth weights and continue to grow into moderate-framed cows. This mating should produce productive females or future herd sires.

C-T Vrdale 1183 is proven old-time genetics all the way through. Stacking Glacier Chateau 744 on top of Rambo 502 – how could you go wrong? Both of these foundation sires have left behind some top females and Vrdale 1183 is no exception. She has a big-time production record with a 106 MPPA and has made some great sale toppers including C-T Dominate 7067, who topped the Feddes/C-T bull sale in 2018. This cross with the upcoming Bieber CL Stockmarket E119 sire should be nothing less than exciting, and will leave you daughters to last a long time in your herd!

This nice, thick bred heifer is a standout. Although she is thick, she is also feminine. You can see by her weaning and yearling ratios that she was the top of her group, boasting 107 WW and 105 YW. Her mother is a 2017-born cow with an MPPA of 102 that consistently produces the kind of calves you want to keep. The calf born from this bred heifer will be one to look forward to and follow.

Bred to Glacier Logan 210 (#372629) on 5/12/22. Pasture exposed from 5/20/22-7/20/22 to Angelo Vindicator #1057 (#4490829). Confirmed for a 2/12/23 calf.

3C Callie 21016 is a tick more moderate in her frame, and also impresses you with her overall amount of width and dimension. She is a capacious, wide-bodied heifer who has tons of spring of rib. As she walks away, you can see the amount of natural thickness that she has. She is sired by the popular ABS Sire, Collier's Final Product, who comes from an outcross pedigree combining three legendary Angus sires who were made famous for their ability to make fantastic females with impeccable udders. And her dam, 19079, was a first-calf heifer when she raised Callie 21016. She is a female that is moderate yet refined in her stature. She offers the depth of body and thickness that you see in 21016 and she does it in a fancy and feminine package. We are excited about her AI service sire, Over Draft Pick 413D. His birth-to-yearling spread is impeccable and he comes from a power cow family whose records are off the charts. This is a "first draft" pick mating - don't miss out on this opportunity!

Bred to Over Draft Pick 413D (#3548524) on 4/30/22. Pasture exposed from 5/14/22-7/16/22 to TJB T Bone 001 (#4297011). Confirmed for a 2/8/23 AI calf.

If grow and go are your thing, then here is a female you need to seriously consider adding to your herd, but, hold on! She also ranks in the top 32% of the breed for Stayability and top 8% for Milk. 106J was the top-ratioing heifer in the Bullis Creek herd for weaning and yearling, as well as ranking in the top 1% of the breed for both traits. Auburn is from a great cow family that we acquired in a past Bet On Red sale and one of the first group of Monuments to sell. Monument was the high-selling bull on the 2020 Fritz sale. He and his sire, Golden Oscar, are stacked with maternal and stayability traits. Her service sire, Bieber CL Stockman E116 (#3751653) for an early is one of the breed's elite calving-ease sires that also boasts top 1% ProS and HerdBuilder stats with top 12% GridMaster while siring structural soundness and plenty of style. Investment time here - don't miss out on this one!

Bred to Bieber CL Stockman E116 (#3751653) on 5/27/22. Pasture exposed from 5/28/22-6/19/22 to VGW Top End 021 (#4272811). Confirmed for a 3/5/23 calf.

Average is the word that you might think describes Lena 121J. Extremely well-balanced hits closer to the mark as you study her pedigree, EPD profile, individual performance, style and completeness. Her sire and maternal grandsire are two of the best female producers that we have used. Lena is a moderate, angular, sweet-made female that will do nothing but make her owner money. 121J was pasture exposed to VGW Top End 021 (#4272811) and due approximately to calve on March 20, 2023. Top End came to us from Westphal Red Angus as their high-selling bull on the 2021 sale. We have high hopes for him, and the first calf crop has so far not disappointed us. Moderate at birth but thick made with correctness and style. Any way you look at this complete female and may want to call her average ... Don't because she is far from average!

Bred to (#) on . Pasture exposed from 5/25/22-6/19/22 to VGW Top End 021 (#4272811). Confirmed for a 3/23/23 calf.

Check out this solid herd-building prospect. Sired by Monument out of a really good old Norseman King daughter that has stood the test of time with a production record that show 10 progeny with ratio averages for BW-R of 94, WW-R of 105, YW-R of 101 and a MPPA of 105. With her sire's tabulation for maternal traits and her dam's longevity with above-average production assures that 157J will be a strong producer for a long time in your herd. She will pull her weight and then some. Don't pull up short on sale day. Get this one bought!

Bred to Bieber CL Stockman E116 (#3751653) on 5/26/22. Pasture exposed from 5/25/22-6/19/22 to VGW Top End 021 (#4272811). Confirmed for a 3/5/23 calf.

Here is a great opportunity to own a beautiful Chris bred heifer. She is a very complete female, with a moderate frame, lots of muscle and quarter and a great foot and leg set. She expresses a lot of femininity in her front end and will make a top-producing cow in any herd. These are the first Maggio 9026 daughters, and they look to be a very uniform set of females with plenty of performance and maternal. Her dam is a beautiful 8-year-old Right Kind cow that just keeps coming to the top, and has earned herself a 107 MPPA with 103 WW-R and 104 YW-R. She is bred to the powerful young herdsire that is quickly making a name for himself, C-T Reputation 0094. He is proving to be calving ease with extra performance and style, all with a super-correct foot and leg set. Don't miss this opportunity to own one of the first Reputation progeny offered for sale, stemming from the proven Chris cow family.

Bred to C-T Reputation 0094 (#4296453) on 5/5/22. Confirmed for a 2/10/23 calf.

Fayette 1137 has caught our eye since she was a few days old. She is dark-cherry red and has that WOW factor. She is a moderate-frame female that looks just like her very productive mother. She has two brothers that went through Feddes/C-T Red Angus sale, and a sister that is in our herd. Her dam has an MPPA of 103 on four head, MGD has a 101 MPPA. 1137 is AI-bred on the first cycle to Bieber CL Stockmarket E119, due with a bull calf that could easily pay for her on her first calf. She stacks the Fayette cow family, as well as Blockana and Sleek cow families.

Bred to Bieber CL Stockmarket E119 (#3751659) on 4/18/22. Pasture exposed from 5/14/22-6/20/22 to C-T Spartacus 1108 (#4468489). Confirmed for a 1/21/23 calf.

All Montana, just via Washington a little. This Domain granddaughter's mother was purchased from Klompiens in Reno at the Bet On Red sale and her sire is a Raisland bull from the 9 Mile program. Holly has a million miles under her belt and did quite well as a show heifer. Her pedigree and mating are built for growth and carcass performance, and she does it in a moderate-framed package. Holly is due to have a heifer calf out of a John Wick son named Private Stock in mid-January.

Bred to Six Mile Private Stock 32H (#4420165) on 4/3/22. Pasture exposed from 4/4/22-5/15/22 to C-Bar Collusion 244J (#4534635). Confirmed for a 1/15/23 calf.

105's sire, The Real Deal, has proven himself to be a cow-making sire that produces very easy-fleshing, deep-ribbed females with excellent dispositions. The daughters that we have calved out have all bred back as 2- and 3-year-old females as a testament to their fertility. Her dam descends from the MLK CRK Grassroots bull that was a high-selling bull to Ole Farms in Athabasca, Alberta. 105's dam has excellent feet and udder, and is a very attractive-profilling female. 105 is bred to have a heifer calf out of 5L Life Is Good 1201-52H, which is a high-carcass calving-ease bull selected by Mushrush Red Angus.

Bred to 5L Life Is Good 1201-52H (#4298395) on 5/21/22. Pasture exposed from 5/25/22-7/3/22 to 5L Cow Boss 3697-34G (#4174570). Confirmed for a 2/27/23 calf.

SUTH Button 21043 is a long-sided, smooth-made female who is clean fronted and offers growth and extension in a stylish package. She has a Stay EPD in the top 14% of the breed and a HerdBuilder Index in the front end of the breed. She is a true momma cow in the making. Her sire is a high-growth and performance sire in the ABS Global bull battery. Her dam is a deep-sided, capacious cow with a good, solid udder and tallies an impressive 103 MPPA. The AI Service sire is the breed-leading and popular ABS sire, Bieber Energize F121. He is proving himself to be the go-to bull for dynamic phenotype, structure and EPD profile across the board. We present to you a momma cow in the making carrying some of the most sought-after genetics in the industry today. She will be a fantastic asset to your herd for years to come!

Bred to Bieber CL Energize F121 (#3958815) on 4/30/22. Pasture exposed from 5/14/22-7/16/22 to TJB T Bone 001 (#4297011). Confirmed for a 2/8/23 AI calf.

3C Emilee 2087 is very phenotypically pleasing and does it in a refined yet heavy-muscled package. She is attractive from all angles and strides out with confidence and ease. Her overall width and dimension in a dark-cherry-red package will be sure to catch your eye. Her sire, Energize F121, is one of the most sought-after Red Angus bulls in the industry today! Truly a no-holes sire that offers versatility in what you can breed him too. He also has a very impressive set of EPDs. Her Six Mile Rawhide dam is a long-sided, attractive cow that boasts a touch larger frame. At 6 years of age, she is sound footed and has an udder to be proud of. I think 2087 projects the best of her dam and her sire physically and offers a solid EPD package highlighting growth and marbling. She has the look to compete in the show ring as well. She will be a great asset to your herd!

This fancy red heifer comes from a long line of Rebalas cows that have been proven to be very impactful in our herd. We have had great success with the Red U2 Money Talks calves. The combination of these two has produced Angelo Rebalas 2078. She is a long, thick heifer that also has the feminine traits that will allow her to be a great producer. When you get a look at her, you will certainly want her in your herd.

If you're looking for a heifer that will add tremendous power, longevity and maternal traits, look no further! Chloe is dark-red, beautiful, attractive and completely loaded with performance, and has a pedigree to back it up. Her dam is a beautiful, powerful, deep-bodied, deep-ribbed, clean-fronted, quiet Schuler Endurance daughter that is selected in the 2020 Bieber Fever production sale. She goes back to the popular Rolling Deep Y118 that made an impact wherever he has been used. Chloe's sire, Money Talks, is a bull that is doing everything right and has definitely made an impact in my herd. He is siring a very consistent pattern of depth, thickness, style and performance with moderate birth weights. Chloe is a great example with her balance, depth of rib, length and sweet disposition. No doubt that Chloe is destined to do great things in her future and has the potential to carry on her maternal legacy!

Penny is moderate, very stylish and clean-fronted, that really has the genetics to look at. She has a very unique pedigree. She has built-in calving ease and maternal traits. This is a very proven cow family. Her grandam, 1Z, is 10 years old and is a solid SUN KING 016 daughter that's been a foundation cow with a 103 MPPA and is top 3% in ProS. With her perfectly level udder, lots of milk and a ton of volume, she continues to produce top heifers and bulls. Penny's dam is loaded with volume and has plenty of fleshing ability. Her sire, Money Talks, is adding a lot of style and thickness to her. A pedigree like this one will make a great breeding piece to any operation.

It seems that all breeders are looking for new, fresh and outcrossed genetics. We all have searched at one time or another for something different from the highly used popular sires. Lakota 235K certainly qualifies for something different. Check her out and you see she is sired by our new herd sire, VGW Top End 021, who was the high-selling bull on the 2021 Westphal sale. Note the exceptional genetics he brings to the table with his balanced, across-the-board EPDs that cover all the bases. Lakota's dam has been solid with below-average birth weight and above-average growth and an MPPA of 101. A bonus with this heifer is that along with being numerically correct, she is also fancy and very easy on the eye. Bid early and don't stop till you get her bought on sale day!

A standout Stockmarket heifer from the famous Chris cow family. Her dam is a beautiful Right Kind cow with a moderate frame and a perfect udder and foot stance. She has earned a 107 MPPA on 7 calves and still looks like a 4-year-old. This heifer has balance, style, performance and mother cow written all over her. She will surely follow in her mother's footsteps and be a great herd-influence female someday. Stockmarket has proven himself to be a breed-influencing sire that will leave his mark on the breed with some great females.

Clark Mattie 2205 is a very fancy and complete heifer. She has loads of capacity and dimension along with excellent structure and femininity. Her dam is our 1401 cow who has done a great job for us, producing several herd sires including Feddes CCC Beartooth – a proven calving-ease bull who left behind some really good females, and Feddes CCC Definitive who is at ABS. 1401 is now in our ET program and has been a very productive donor. 2205's sire is MRLA Resource 137E who is a Canadian outcross bull who produced many sale toppers in 2021. We are excited to put his daughters into production and we believe 2205 will be a good one.

2098 is the epitome of what we are trying to raise. Phenotypically she is incredibly balanced with a beautiful front end, great foot and leg structure, loads of rib shape and dimension and enough thickness to pass on and create herd bulls. Her maternal granddam is a top donor at 13 years old and is still producing. There are six generations of donors on the maternal side of this pedigree. Most of the top cows ever produced at the Feddes Ranch are stacked in this pedigree. When you match up that pedigree with her EPD profile it's hard to go wrong. 2098 boasts 12 traits in the top 30% of the breed, again balance is what comes to mind. If you are looking for a heifer to show that has donor potential, a pedigree to back her up, a top producer as well as an EPD profile you can't go wrong with, then look no further than right here.

Redefining the term, "Soggy Heifer," the Dazzle cow family strikes again with everything you have come to expect from them: elegance, power, excellent disposition and a massive rib. Feast your eyes on this gorgeous diamond. Along with her exquisiteness, high performance, wide base and structural soundness, this beauty sets it all down to the ground on an excellent foot. Take note that her second-calf dam already sports a 104 MPPA and presents a picture-perfect udder. We have used her sire, DKK Brute 931, extensively in our AI program. We sure love what he consistently brings to the table.

This dark-cherry-red girl goes back to Jumbo. He put the length, thickness and depth back into our herd – which you can see in this pretty heifer. The dam comes from Bowles J5 Reds. She has been an excellent producing female for us. This heifer calf has great growth percentiles – she will not disappoint!

Raw power wrapped in a dark-red, feminine and balanced package. This heifer calf has performance and muscle to spare while she stands on a wide bone and solid foot. Even though she has plenty of style today and makes a pleasant-dispositioned show heifer, her best days are yet to come. Structural correctness, good udders, easy fleshing, high performance cattle are bred in from top and bottom. Don't miss this stout, feminine, stylish heifer calf. She is entered into both the Junior and Open Red Angus show.

248 descends from a strong performance cow family. Her granddam was a NILE purchase back in 2007 from Heart River Ranch that earned an MPPA of 112. Her dam is an 8-year-old Andras Fusion R236 daughter that has earned a MPPA of 108. Both of the cows in her lineage have had excellent feet and udders throughout their lifetime. 248's sire is the cow-making RED Minburn Copenhagen 3Y that many breeders found in the U2 dispersion and are still finding through progeny produced through semen sold in that historic event. This dark-cherry red heifer has all the potential to excel beyond the females in her pedigree.

This is our first trip to the NILE so we decided to go right to the top end of our heifer calves with this entry out of MCC Princess 905 and a Franchise son from the 9-Mile fall-calving program who was the top age-advantaged bull in the 9-Mile sale in 2020. Take a look at this heifer's eye-popping EPDs. She starts her pedigree at 8% for ProS and a 7% GridMaster score. She offers a 7% WW, a 5% YW, an ADG score of 4% and then a 7% CW and an 8% REA. We don't plan to sell any more females directly from the Princess line because the Princess cow is definitely part of the foundation herd going forward. It took a lot of conversation before we decided we need to make our debut at the NILE something special.

Red Magnolia 212 is sure to add muscle and growth into your herd. She is in the top 1% for WW, WW and Milk! She is a long, deep-sided, growthy girl. She has been super sweet from the beginning and would make a good project for a junior. She comes from a good cow family with a lot of length and production. Her dam is 4 years old with an MPPA of 107!

SUTH Dominatrix 22095 is moderate in her frame and has the shape and dimension to go with it. She offers a lot of spring of rib and is wide across her top. Being born on the last day of February, she is a younger female who is youthful in her design. She is sired by the ST Genetics sire, Dominion. He will inject tons of phenotype and generations of maternal value into this mating. Her Hawkeye dam is the product of one of our oldest and strongest cow families. She is a dark-cherry-red heifer who is a deep-sided, capacious female. We expect this heifer to be a real sweetheart. Don't miss out on your opportunity to own these genetics today!

Thank you for supporting the

MONTANA RED ANGUS ASSOCIATION'S 39TH ANNUAL Prestigious NILE RED ANGUS SALE

History of the Montana Red Angus Association

The Montana Red Angus Association (MTRAA) was officially organized on November 3, 1972. Several progressive breeders met at the Rainbow Hotel in Great Falls, MT. It was there that they elected officers and established by-laws. The first officers for the ensuing year were – President: Dave Cawfield, Vice-President: Jim Leachman, Secretary/Treasurer: Pete Stoltz.

MTRAA has a total membership of over 65 members, which includes both registered and commercial breeders from across Montana and a few other states. Annual dues are \$50 and payable by January 1st of the current year. Dues are to be sent to the Secretary/Treasurer. An annual meeting is held each October, in conjunction with the NILE. MTRAA happenings and membership listings can be found on our website at www.montanaredangus.org. We can also be found on Facebook.

Montana ranks as the largest register of Red Angus cattle in the Red Angus Association of America, with over 8,953 head registered this last year. Approximately 3,072 head of females and 2,219 head of bulls were transferred to other breeders this last year. Montana is ranked ninth for regular memberships with 133 Montana members in the national organization. We also have 44 Montana Junior members within the RAAA.

MTRAA has always been progressive and leads the way in many programs. They are proud sponsors of the NILE Prestigious Red Angus Sale, which started in 1982. The sale is held in conjunction with the NILE annually in October. This was

the first sale to promote Red Angus cattle being sold by areas breeders. MTRAA is a proud sponsor of youth and established the County Buckle Program in 2000. This program honors all county fair champions that show cattle with Red Angus genetics. These champions are awarded a belt buckle for their achievements prior to the NILE sale. A female futurity was established in 2009. Current NILE sale animals and progeny of past sale animals are eligible to participate. This was established to showcase that the animals purchased at the NILE Sale work in the “real world.” The futurity is held annually in October at the NILE in Billings, MT. We also sponsor the Montana Stock Grower’s Association Cattleman’s College each year in Billings, MT.

In 1977, the first “Feeder Calf” sales were held in Billings and Butte. These sales have expanded to Three Forks, Miles City and Glasgow. October has been dubbed “Red October” as thousands of cattle are sold in these sales.

A Montana Tour is held in the fall on a rotation system that enables attendees to view cattle from both registered and commercial breeders across the state. The state is divided into seven regions, with the breeders in the area hosting the event. We invite you to join us for this annual event of extraordinary camaraderie, plenty of food, gracious hosts, good cattle and fun.

Experience Montana’s Red Angus hospitality and contact one of our breeders today!
